Letter of Invitation for Miss Qian Zheng for the Application of an STU Scholarship Grant

Dear Miss Qian Zheng,

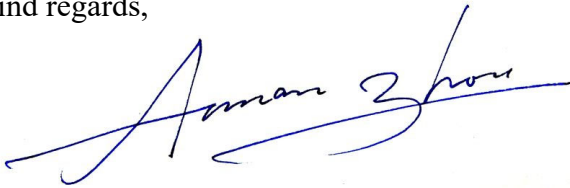

I am writing to invite you to visit our group at the Department of Civil & Infrastructure Engineering, School of Engineering, Royal Melbourne Institute of Technology (RMIT University), and work on the joint project under my supervision from June 2023 to May 2024. I received your application and knew about your research project—disaster risk assessment and intelligent decision under climate change.

Our group is a successful collaborative research team focusing on the development of methods associated with Environmental and Geotechnical Engineering. We will provide you with the advanced Numerical Analysis Laboratory and infrastructure to support your research in our group. I truly believe our collaboration will be fruitful. Besides, English is the official language

used in most activities associated with RMIT University. Based on our previous communication, I believe that your English level is sufficient to communicate and work in our group.

Finally, this invitation is conditional on you receiving a fellowship from Shantou University (STU), which would cover the cost of living, accommodation, and travel, for the duration of your stay in Melbourne. Therefore, further funding from RMIT will not be provided. I wish you success in your application for the STU scholarship, and I'm looking forward to having you join an exciting work within our research group.

Kind regards,

Prof. Annan Zhou
Civil & Infrastructure Engineering
