

September 8th, 2023

To: Embassy or Consulate

RE: Xiong, Zhi

Email: zxiong@stu.edu.cn

Address: Shantou University, 243 Daxue Road, Jinping District, Shantou,
Guangdong Province, China

To whom it may concern,

We write to support Zhi Xiong (as referenced above) for the application of the Exit-Entry Permit for Travelling to and from Hong Kong and to attend the 26th International Symposium on Research in Attacks, Intrusions and Defenses (RAID 2023), to be held in Hong Kong, during October 16th-18th, 2023 (<https://raid2023.org/>). RAID 2023, previously known as Recent Advances in Intrusion Detection, aims at bringing together leading researchers and practitioners from academia, government, and industry to discuss novel research contributions related to computer and information security. Attendance to this academic conference is open to all those interested in the subject matter. The Hong Kong Polytechnic University is proud to be the host institution to coordinate the organization of the RAID 2023 conference.

The in-person attendance to RAID 2023 is very important, as we are entering the post COVID-19 era. Through a programme of keynotes and paper presentations, this conference offers extensive opportunities for academic researchers, industry practitioners, engineers, and professionals in the computing related areas to keep abreast of technology and maintain a competitive advantage.

We really appreciate your support. Please do not hesitate to contact us, should you have any further questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Luoxiapu".

Xiapu LUO

General Chair of RAID 2023
Professor, Department of Computing
The Hong Kong Polytechnic University
