

Summary of report of International Conference

9th Indian Young Geotechnical Conference, Aurangabad, India

21-22 March, 2023

I was invited to give a keynote lecture at 9th Indian Young Geotechnical Conference, Aurangabad, India. The conference includes other eminent speakers in geotechnical engineering from UIUC, USA; University of Canterbury New Zealand; Technical University of Hamburg Germany; Indian Institute of Technology (IIT) Roorkee, India. This visit was important to meet young talents in geotechnical engineering and also Prof Neelima Satyam from IIT Indore. She has won the overseas famous teacher project of Guangdong. Future students and scholars will be potentially invited to Shantou University for research exchange.

Following are the pictures of the visit to conference:
