**RE: Invitation letter Prof. Yu Sing Leung**

To whom it may concern,

I am writing to invite Prof. Yu Sing Leung (Jonathan) to visit the Swire Institute of Marine Science, The University of Hong Kong, as a visiting scholar from 30 April 2024 to 5 May 2024. In his visit he will have meetings with my postgraduate research students on their experiments, Prof. Leung and I will discuss our future collaborative research and grant application, and there will be opportunity for Prof. Leung to meet new potential collaborators at The University of Hong Kong. This visit will provide a good opportunity to develop the research connection between Shantou University and The University of Hong Kong.

Jonathan is my long-term collaborator and we have published many papers in high-impact journals together. Therefore, I am glad to continue to work with him in the future.

I am looking forward to seeing Jonathan in Hong Kong soon.

Yours sincerely,

Prof. Bayden D. Russell
