

**International Conference on
Environmental Pollutants and Toxicants Affecting Health:
Collaborative Efforts for Improving Quality of Life**

June 19 - 21, 2024 at the Convention Center, Chulabhorn Research Institute, Bangkok, Thailand

April 9th, 2024

Professor Wang Tieyu
Director
Guangdong Provincial Key Laboratory of
Marine Disaster Prediction and Prevention
Shantou University, 243 Daxue Rd
Jinping District, Shantou, China

Dear Professor Tieyu,

The Center of Excellence on Environmental Health and Toxicology, of which the Chulabhorn Research Institute (CRI, Bangkok, Thailand) is a member institution, is organizing an international conference on “Environmental Pollutants and Toxicants Affecting Health: Collaborative Efforts for Improving Quality of Life”, at the CRI Convention Center, Bangkok, Thailand, from June 19-21st, 2024. The conference has the aim of creating partnerships within the Asia Pacific region among countries that share environmental health issues of concern. It will provide a forum for representatives from these countries to meet with world authorities on various environmental health issues, and exchange of ideas and expertise that would foster collaborations. One of the outputs this conference would also feed into is a database of world authorities, as well as professionals in the region on various environmental health topics and the expertise/experience/affiliations that would foster these collaborations, now and in the future.

I am writing to invite you to attend the conference on the aforementioned dates. Please find attached, a summary of daily activities during the conference. As a recognized expert in the field of ecological risk assessment, your expertise would fit in very well with the theme of the conference, and your contribution would be of great value. As such, we would like to invite you to give a 30-minute presentation in the symposium on “Environmental Accumulation and Magnification Towards Human Exposure and Health Impacts” on the afternoon of June 21st. The chairperson of this symposium is Dr. Michelle Embry from the US Health and Environmental Sciences Institute (HESI), and she will be in touch with you to discuss the details of the symposium. Meanwhile, you may also register at the conference website: <https://eht.cri.or.th/conference/registration> (select “New Registration” and choose “Invited Speaker”).

We will cover your hotel accommodation, meals during the period of the conference, and roundtrip air travel (economy class) to Bangkok. We will also provide transportation to and from the airport and the hotel. Please note that you should plan to arrive in Bangkok on June 18th, 2024, and depart on June 22nd, 2024. Kindly provide us with a receipt of your air ticket at your earliest convenience.

Yours sincerely,

Mathuros Ruchirawat, Ph.D.

Chairperson of the Organizing Committee
Director, Center of Excellence on Environmental Health and Toxicology
