Professor Shizhong Du
Department of Mathematics,
Shantou University,
Shantou 515063,
Guangdong Province,
P.R. China.

Dear Professor Du,

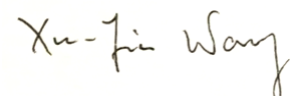

It is my great pleasure to invite you to visit the Mathematical Sciences Institute (MSI), the Australian National University (ANU), for the period from July 27, 2024, to August 7, 2024.

Recently we have completed a joint research paper on the L_p -Minkowski problem. I would like to invite you to visit ANU and discuss with you the latest developments in this research field, and explore possibility for further collaboration. We also hope that you can give a seminar talk at MSI.

We will provide you with access card to ANU Library and an office desk at MSI. However, due to our limited funds, we are unable to provide financial support for your visit. Please use your own research grant to cover your travel and accommodations during your visit at ANU.

I hope that you will accept our invitation to visit ANU and look forward to seeing you at Canberra. Please feel free to contact me if you have any questions.

Sincerely yours

Xu-Jia Wang
