RE: Letter of Invitation for Prof. Enxin Wu

Date of Birth: [REDACTED]

Address: Shantou University

Mathematics

[REDACTED]

Shantou, Guangdong Province, China 515063

Telephone: [REDACTED]

Email: [REDACTED]

April 21, 2025

Dear Visa Official,

I am writing in my capacity as Manager of Academic and Scientific Programs at the Fields Institute to support the visa application of Prof. Enxin Wu, from Shantou University, who has been invited to attend the Workshop on Homotopy Theory (July 7-11, 2025).

The Fields Institute has asked Prof. Wu to contact a Canadian Consulate to make arrangements for their visit to Canada. As a [foreign national](#), Prof. Wu has been advised to arrange for personal medical coverage during their stay.

The total duration of Prof. Wu's stay in Canada pursuant to this invitation by the Fields Institute is expected to be from 07/06/2025 to 07/11/2025. It is our understanding that Prof. Wu intends to stay at an Kaisar Guest House, 372a College St., Toronto, Canada, and pay expenses by credit card or cash.

We ask that Prof. Wu be issued a visa for scholarly / presentation purposes to enable participation in the Workshop on Homotopy Theory (July 7-11, 2025). We are not requesting that the visa allow Prof. Wu to earn income while in Canada. Because the date of this event is fast-approaching, we ask that you kindly expedite the issuance of Prof. Wu's visa. We welcome any questions that you may have.

The Fields Institute is a center for mathematical research activity - a place where mathematicians from universities in Canada and abroad, from business, industry, and financial institutions, can come together to carry out research and address problems of mutual interest. The Fields Institute mission is to provide a supportive and stimulating environment for mathematics innovation and education, to promote mathematical activity in Canada, and to help expand the application of mathematics in modern society. The Fields Institute's major sources of funding are the Ontario Ministry of Colleges and Universities, the Natural Sciences and Engineering Research Council of Canada, the National Science Foundation, nine principal sponsoring universities (Carleton, McMaster, Ottawa, Queen's, TMU, Toronto, Waterloo, Western, and York) and eleven Affiliate Universities in Canada and Europe.

Please email me at beelhart@fieldsinstitute.ca if you have any questions regarding this request. You can also reach me at 416-348-9710, Ext. 2018 during office hours.

Sincerely,

Bryan Eelhart
Manager of Academic and Scientific Programs
