Re: Application for a visitor visa

Immigration Officer,

I am writing this letter to confirm that Dr/Mr/Ms Zhiwen Zhu's abstract was accepted for a presentation at BEI-2025 to be held from July 21 to 24, 2025 in Paris, France.

Paper No: 6907

Author: Zhiwen Zhu

Title of presentation: Investigation on buckling behavior of orthotropic steel decks strengthen by UHPC overlay

BEI-2025 is one of the major conferences in the area of bridge engineering and related fields, and is sponsored by the following international organizations: the American Concrete Institute, Korea Concrete Institute, Japan Prestressed Concrete Institute, Japan Concrete Institute, and KYOKUTO KOWA. The broad purpose of the conference is to promote state-of-the-art knowledge and develop a scholarly network.

Dr/Mr/Ms Zhiwen Zhu has paid a registration fee, which will include access to all technical sessions and plenary speeches, welcome reception, lunch, coffee breaks, a conference banquet, and online proceedings.

It is requested that Dr/Mr/Ms Zhiwen Zhu be granted with a visa for the above-mentioned period, so that Dr/Mr/Ms Zhiwen Zhu can share valuable knowledge with other participating engineers and scholars from all over the world. The Bridge Engineering Institute, An International Technical Society, does not provide financial assistance. Should you have any questions please do not hesitate to contact me.

Regards,

Jimmy Kim
