

8th BRAZILIAN MEETING ON CHEMICAL SPECIATION

Sao Pedro, Sao Paulo, Brazil

November, 9th to 11th, 2025

Invitation Letter

Dear Dr. Ran Bi,

On behalf of the Organizing and Scientific Committees of the **8th Brazilian Meeting on Chemical Speciation** (8th EspeQBrazil), it is a great pleasure to invite you to present the **Keynote Lecture** “*Arsenic Speciation in Marine Ecosystems*” at our conference.

The EspeQBrazil is held biennially and attracts approximately 200 participants. This edition will take place alongside the 17th Rio Symposium on Atomic Spectrometry (17th RSAS). Both meetings will be held consecutively at the *Hotel Fazenda Fonte Colina Verde, in São Pedro, São Paulo State, Brazil*, from 9th to 14th November 2025, with EspeQBrazil running from 9th to 11th November.

Further information about the meetings and São Pedro can be found on our webpage, <https://eventos.galoa.com.br/8o-espeqbrazil-e-17o-rsas>, which will be periodically updated.

Please, note that Keynote Lectures should have an approximate duration of 30 minutes. Do not hesitate to contact us if you have any questions or require additional time to plan your activities for 2025.

In addition, we would be grateful if you could provide the following information:

- A photograph to be uploaded to the event's website;
- A short biography (approximately 200 words) for the website and for your introduction during the meeting.

Knowing that your participation will contribute significantly to the success of both meetings, we look forward to welcoming you to São Pedro in November.

Sincerely yours,

Prof. Amauri A. Menegário
Chair

Prof. Marco A. Z. Arruda
Co-chair
