## INVITATION LETTER

### International Symposium on Metal-Organic Frameworks: A Celebration of MOFs and the Nobel Prize in Chemistry 2025

Monday December 8<sup>th</sup> – Tuesday December 9<sup>th</sup>, 2025  
Stockholm, Sweden

Prof. Mian Li  
Department of Chemistry, Shantou University

Dear Professor Li,

It is our great pleasure to invite you to the "International Symposium on Metal-Organic Frameworks – A Celebration of MOFs and the Nobel Prize in Chemistry 2025", to be held at the Swedish Museum of Natural History in Stockholm, Sweden. We are organizing this symposium during the Nobel Week 2025 in conjunction with the Nobel Lectures on December 8 and the Nobel Prize Award Ceremony on December 10.

The symposium is a gathering of metal-organic framework (MOF) and porous coordination polymer (PCP) enthusiasts ranging from established pioneers to the next generation of researchers and students. This event aims to celebrate the broad scientific journey of MOFs as a field. We wish to highlight and reflect upon the collective contributions that have shaped MOF chemistry—ranging from foundational discoveries, recent advances, emerging perspectives, to personal accounts of the influence of pioneering figures in the field.

We are grateful that you have accepted our invitation to participate in the symposium, especially considering your previous cooperation and publication with Prof. Omar Yaghi and Prof. Mohamed Eddaoudi. We anticipate to be an inspiring gathering to reflect on the achievements, diversity, and future directions of MOF science. While registration is free, we do not offer support for other costs such as travel and accommodation.
