

6th Workshop on Luminescence Dating and its Applications

December 10-12, 2025

Patron

Prof. A.K. Singhvi
PRL, Ahmedabad

President

Dr. Madhav K. Murari
IUAC, New Delhi

Convener

Dr. Anil Kumar
Dr. Som Dutt
WIHG, Dehradun

Scientific Advisory Committee

Dr. V. K. Gahalaut, WIHG
Dr. P. Srivastava, IITR
Dr. D. Kumar, CSIR-NGRI
Dr. P. Morthekai, BSIP
Dr. R. H. Biswas IITK
Dr. N. Chauhan, PRL
Dr. M. Jaiswal, IISER-K
Dr. S. Sharma, PRL
Dr. S. Prizomwala, ISR
Dr. D. R. Mishra, BARC
Dr. M. Rathore, MPCST
Dr. M. Thakur, PU
Dr. V. Singh, DU
Dr. D. Banerjee, PRL
Dr. J.N. Malik IITK
Dr. M. C. Sharma, JNU

Dear Prof. Singhvi Ji,

Greetings from the 6th workshop on Luminescence Dating and its application!

As you are aware, the 6th Workshop on “Luminescence Dating and its Applications” will be held at Wadia Institute of Himalayan Geology (WIHG), Dehradun, from 10-12 December 2025. This workshop aims to introduce and advance the knowledge of luminescence dating methods for early-career researchers and professionals from diverse fields. These three days of deliberations will provide an excellent opportunity to bring into focus the innovations and developments made by the scientific community working in the luminescence technique.

Luminescence geochronology is increasingly vital for establishing absolute timelines for the evolution of Quaternary landscapes and archaeological remains. These annual workshops promote collaboration, capacity building, and knowledge exchange. The 6th event in this well-attended series offers a valuable forum for interaction among experienced researchers, young scientists, and students, fostering interdisciplinary collaboration and dialogue.

Wadia Institute of Himalayan Geology-An Autonomous Institution of Department of Science and Technology (DST), Government of India, undertakes, coordinates and promotes advanced scientific research in the field of Geosciences.

On behalf of the organising committee, I request your benign presence and accept our invitation to deliver a plenary lecture of 45 minutes, including discussion on the topic of luminescence dating and its growing potential in geological and geographical areas. A line of confirmation would help us in finalising the Technical Program. The title and extended abstract are solicited. Needless to mention that your accommodation, local transport, sustenance and registration fee will be borne by the organiser.

Looking forward to listening to you.

Kind regards,

(Convener)
